5 **Abstract**

6 There are lots of and kinds of stone pagoda and stone Buddhas at Unjusa Temple in Hwasun,
7 Jeonnam, which is thus called as Cheontap(체온탑) or Cheonbul(천불). Several archaeological
8 excavations have been conducted in Unjusa though, the foundation purpose or background
9 motivation is yet wrapped in mystery. Circular shape is representative pagoda of Unjusa made
10 of round frame or spherical roof but circular stone pagoda is unusual that there is no similar
11 example found in India or China as well as in Korea. Located in the symbolic center, Circular
12 stone pagoda is a key to understand Unjusa. Yundeung(윤등) is made of stone for circular stone
13 pagoda and there are craft lamp and large lamp. The large lamp, for the palace courtyard on
14 the occasion of Palgwanhoe, (팔관회) consists of discs and light on each disc. Outdoor lamp of
15 circular stone pagoda made of stone for permanent preservation purpose.

16

17 **Index terms**— unjusa temple, circular stone pagoda (cylindrical stone pagoda), circular lamp (yundeung),
18 stone lamp, palgwanhoe (팔관회).

19 **1 Origin and Meaning of Circular Stone Pagoda in Unjusa**
